PROFILE

Skilled BI Developer with a passion for Front End and Web Development looking to solve challenging front-end problems while expanding my skills in CSS, HTML, JavaScript, and/or Angular.

SKILLS

- *Expert:* HTML5, CSS3, jQuery, SVG, SQL
- *Intermediate:* JavaScript, SQL Server, Git
- *Beginner:* Angular 7, WordPress, Bootstrap 4

WORK EXPERIENCE

Sagarmatha, Yakum   2017 – Present
BI / Front-End Developer (Break in 2019/2020 to travel)
- Modernized the entire UI of the BI reporting platform using advanced CSS
- Implemented a wide range of OBIEE data visualization dashboards using JavaScript, HTML and JQuery
- Developed CSS with multi-language and cross-browser compatibility (Chrome, IE, Edge)
- Built reusable SVG and D3 charts from scratch to improve performance
- Designed ad-hoc pages and dashboard elements
- Worked in two week sprints using Jira

Xerox Corp (Wipro Ltd), Wilsonville, OR   2012 – 2017
Operations Analytics Specialist (Student from 2012 to 2016, Full Time from 2016)
- Designed and developed QlikView dashboards to display sales, marketing, and finance data
- Consulted closely with end users to gather, interpret, and implement business requirements
- Built a fully automated QlikView reporting system supporting a half-a-billion-dollar per year business
- Successfully communicated with all users from analysts to senior executives
- Refactored and redesigned all reports with a clean, consistent, user-friendly layout

PROJECTS

Voice-Based Web App, Brandeis University   2015
- Designed, built, and tested a multi-page voice-based web application using Metoer.js and MongoDB
- Implemented our website designs using JavaScript, jQuery, HTML5, Bootstrap, and CSS
- Worked in a team of four with agile development and one-week scrums
- Code at https://github.com/gkatan/Speak
